Citizens of Dallas County;

It is with great honor that I support Chad Leonard for Sheriff. Sheriff Leonard has done an excellent job with the Sheriff's Office, Dispatch, his Deputies, and Law Enforcement agencies in the cities of Dallas County. Chad has excellent leadership qualities that can be seen in himself as well as his employees. He has done an exceptional job turning his office into one of the best in the state. Chad has done an excellent job in this county not only in the Law Enforcement community but in the Fire Department and EMS communities and is highly respected by everyone. He is very professional and always willing to help out and sees everyone as an equal no matter which community he is involved with. I have had the privilege on several occasions to work with Chad on and off scene, in bad times as well as good and you can always see his professionalism and leadership in any situation. Chad supports the 2nd Amendment of which is important to me as a CCW holder. He is very involved with the Veterans as he served his country as a Marine and for that I am grateful and say Thank You. He started a very successful and respected Reserve Deputy program and requires ongoing training for them and his Deputies alike as well as some cross training with my Department. He supports Shop with a COP, a program to help the less fortunate of the community and does an annual public shoot supporting the program.

More important than all of this, he is a family man and is very involved with his family and their activities as well as being very involved in his Church.

This says a lot for his character and proves he cares about everyone in the county and under his watch.

This is the type of person this county needs to remain as Sheriff. It is an honor and privilege to work with him professionally as well as calling him a friend, therefore why I am endorsing him as Sheriff of Dallas County in November.
