

January 31, 2012

As a Captain of the Adel Fire Department I have worked along side Chad in many tasks within the county.

He takes a balanced and responsible approach in everything he does, whether it be training his staff, giving them the best in equipment to complete a task, starting community involvement programs like the reserve deputy program, and has always been forth coming to help in community events within his county, and continues to work in build the relationships of all the other Dallas County Emergency agencies; which is something I cannot say for former sheriffs.

I feel Chad has given 150 percent of himself to his staff and the citizens and his county and will continue to do just that. I support Chad for re-election in November and look forward to working with him in the future.

This county deserves a law enforcement leader with dedication, honesty, and integrity to lead it into the coming years. Chad truly exhibits the 7 pillars of character counts in our county!! Thank you Chad Leonard for all you do for Dallas County!!
